Portfolio: portfolio-website-two-psi-59.vercel.app

PROFESSIONAL SUMMARY

Full-Stack Python Developer with internship experience and hands-on expertise in FastAPI, Flask, React, PostgreSQL, and MongoDB. Skilled in building scalable web applications, REST APIs, authentication systems, and database-driven solutions.

TECHNICAL SKILLS

Languages : Python, JavaScript, SQL

Frontend : React (Vite), HTML5, CSS3

Backend : FastAPI, Flask, REST APIs

Databases : PostgreSQL, MySQL, MongoDB

Authentication & Security : JWT Authentication, RBAC, OTP Verification

Tools & Platforms : Git, GitHub, Render, Vercel, Linux

PROFESSIONAL EXPERIENCE

Software Developer Intern

Nutmeg Software Solutions, Hosur

Jan 2026 – Mar 2026

Project: BI Analytics Platform

Tech Stack: Flask, MongoDB, Pandas, JWT, Twilio, SendGrid

- Built a Business Intelligence platform for processing and analyzing organizational datasets.
- Developed APIs to ingest CSV, Excel, and JSON data sources.
- Implemented authentication, OTP verification, and session tracking.
- Created analytics modules for data aggregation and reporting.
- Integrated third-party communication services for notifications and verification workflows.
- Improved data processing efficiency through automated validation pipelines.

PROJECTS

Student Project Collaboration Portal

FastAPI | React | PostgreSQL | SQLAlchemy | JWT

Live Demo: college-project-portal.vercel.app

- Designed and developed a full-stack collaboration platform supporting Students, Mentors, and Administrators.
- Implemented JWT-based authentication and Role-Based Access Control (RBAC).
- Built project lifecycle management including project creation, join requests, approvals, mentor assignment, and completion workflows.
- Developed secure REST APIs using FastAPI and SQLAlchemy.
- Optimized database operations through indexing and structured query design.
- Integrated project messaging, profile management, and secure file upload functionality.
- Deployed production-ready frontend and backend using Vercel and Render.

Face Recognition Attendance System

Python | Flask | OpenCV | MySQL

- Developed an AI-powered attendance management system using facial recognition.
- Implemented real-time face detection and recognition workflows using OpenCV.
- Added geolocation-based attendance validation to improve accuracy.
- Built attendance tracking with duplicate prevention mechanisms.
- Developed administrative dashboards and reporting modules.
- Generated attendance reports with Excel export functionality.

EDUCATION

Master of Computer Applications (MCA)

Adhiyamaan College of Engineering | 2024 – 2026

Bachelor of Commerce (B.Com)

Periyar University | 2021 – 2024

SOFT SKILLS

Problem Solving | Team Collaboration | Adaptability
